American Structurepoint, Inc. has been pre-qualified by Hays County for the requested services. The process to initially select an engineering consultant to negotiate a scope of work and fee proposal, with subsequent action by the Hays County Commissioners Court to approve the contract integrating the negotiated scope of work and fee proposal, follows the process set forth in the Hays County Purchasing Policy and Procedures Manual, revised May 30, 2017. **A motion was made by Commissioner Whisenant, seconded by Commissioner Conley to approve selection of American Structurepoint, Inc. to provide schematic, environmental documentation and Plans, Specifications & Estimates (PS&E) services for the FM 3237 safety improvement project from FM 150 to RR 12; and to authorize staff and counsel to negotiate a contract.
