**SUMMARY**

With the added requirements for technology in the Precinct offices, the Information Technology Department has determined that the bandwidth has become insufficient for adequate functionality of existing and future systems.

The current monthly cost of existing 1.54M T1 circuits is \$2,825. The monthly cost to add 10MB fiber circuits would be \$3,975, which is an additional \$287.50 a month per Precinct. Project savings in overall telephone & data line expense line items will fund this increase.
