Formal notice is hereby given that Pedernales Electric

If the proposed installation is a parallel installation, then the installation shall be located two feet within the edge of right-of-way unless otherwise approved by the County.

The line will be constructed and maintained on the road right-of-way as directed by the Hays County Road Department (HCRD), an agency of the Commissioners Court of Hays County, in accordance with governing laws, including but not limited to the "Federal Clean Water Act", the "Federal Endangered Species Act", and the "Federal Historic Preservation Act". Upon request by the HCRD, proof of compliance with all governing laws, rules, and regulations will be submitted to HCRD before commencement of construction.

Our firm will use Best Management Practices to minimize erosion and sedimentation resulting from the proposed installation, and we will revegetate the project area as indicated under "General Special Provisions".

Our firm will insure that traffic control measures complying with applicable portions of the Texas Manual of Uniform Traffic Control Devices will be installed and maintained during this installation.

The location and description of the proposed line and appurtenances is more fully shown by _____ complete sets of drawings attached to this notice.

It is expressly understood that Hays County does not purport, hereby, to grant any right, claim, title, or easement in or upon this road; and it is further understood that Hays County may require the owner to relocate this line, subject to provisions of governing laws, by giving thirty (30) days written notice.

It is understood and agreed that any damages sustained to the appurtenances installed under this proposal as a result of road construction and/or maintenance, including but not limited to mowing, ditch cleaning, culvert repair or replacement, roadway excavation and base work shall be the sole burden and expense of the owner.

Applicant agrees to notify HCRD prior to commencement of any routine of periodic maintenance which requires pruning of trees within the road right-of-way, so that the County may provide specifications for the extent and methods to govern in trimming, topping, tree balance, type of cuts, painting cuts and clean up.

The installation shall not damage any part of the road and adequate provisions must be made to cause minimum inconveniences to traffic and adjacent property owners. In the event the Applicant fails to comply with any or all of the requirements as set forth herein, Hays County may take such action as it deems appropriate to compel compliance.
